Culture

- ▶ Gain international work experience
- ▶ Work across business verticals with creative and dynamic individuals
- ▶ Build working relationships in a collaborative and open environment
- ▶ Acquire diverse business and technical skills
- ▶ Integrate with software development teams and processes
- ▶ Establish an international network and acquire a unique global perspective
- ▶ Get exposure to a vibrant culture

The **CONNECT** internship program has been running for well over a decade. Extentia has had interns from across the world - the Americas, Europe, Africa, the Middle East, and Southeast Asia.

Internships are available for graduate or graduating international students in:

- ▶ Marketing
- ▶ Business Development
- ▶ Software Development and QA
- ▶ UI/UX Design
- ▶ Human Resources

ABOUT EXTENTIA

Established in 1998, Extentia is an Indo-German global technology consulting organization that delivers solutions to clients in 5 continents. With strong technical skills in Microsoft, cloud, mobile, and open source technologies, Extentia has experience across multiple sectors including education, travel, agriculture, healthcare, and finance, with several enterprise deployments.

The Design Studio is a graphics design and UI group that actively supports a multi-skilled software development team. uXtentialabs is Extentia's usability testing and research lab that provides User Centered Design services for software products and systems. iXtentia is a division of Extentia that develops applications for Apple, Android, Windows Phone, and other mobile platforms. Extentia has offices in India, the United States, Europe, the UAE, and the UK.

For more information and to apply, look up the **CONNECT** web site or write to connect@extentia.com.
