

Front End Internship at ScaleFocus

Duration

Between 6 and 12 months. To be specified with the candidate.

Commitment

Full-time.

Starting Date

January 2019

The Host Company

ScaleFocus is an European IT solutions delivery center. Enabling our global customer base through technology excellence, R&D and innovation, we are focusing on advanced engineering services and bespoke consultancy in the domains of Digital, Data and Cloud. Through team care and customer success obsession, we are engaging in fulfilling partnership journeys of open communication, respect, trust and drive for tangible business outcomes.

More about us

<https://www.scalefocus.com/>

Location

Burgas, Bulgaria

Burgas is the fourth largest city in Bulgaria. It is situated on the Black Sea shore, in the Burgas Bay, 400 km from the Capital city - Sofia. The city's population is more than 230,000 people. The Burgas port is the largest cargo port in the country.

During the summer season Burgas turns into a festival center. The city has transformed exceptionally during the past years, turning it into a great place for business, cultural events and residence for young and energetic people. Burgas has put a solid focus on developing its IT ecosystem in the past three years.

Role

At ScaleFocus we aim high. We share your enthusiasm for becoming a Front-End Engineer.

Joining us means you'll be able to boost your digital skills in the area of software development and gain theoretical and practical knowledge from professionals with strong background and know-how. You will have the opportunity to work for ScaleFocus and receive a monthly monetary scholarship for 6 to 12 months, spent in knowledge digging, in line with Erasmus+ rules and procedures. With us you will keep the curiosity in and reach new technical heights.

Get ready for your firestart in IT!
