

# TUNDRA

Internships 2023

**T**UNDRA is a Finland based architecture firm specialising in research, urban design, and communication. We are located in the beautiful city of Tampere in the southwest of Finland. We undertake national and international design competitions and projects.

We specialize in sustainable Nordic urban design, and strive to create neighbourhoods that are attractive places in which to live and work. Jolma Architects also has expertise in sustainable modular wooden buildings using innovative novel timber products. Our contemporary buildings are designed using the very latest in circular economy thinking with a focus on added value throughout the life cycle of the building.

# Tervetuloa!

**W**elcome! TUNDRA is looking for enthusiastic and talented interns to work with us on exciting national and international architectural design competitions and projects related to urban design, housing design and architectural composition. Candidates may be students or recent graduates who are looking to gain valuable industry experience with an innovative architecture practice.

We believe in making the most of opportunities. That's why we encourage our interns to take full advantage of their time in Finland, whether it be seeing the northern lights, enjoying nearly 24 hours of sunshine in the summer, or ice swimming in the winter. We also regularly plan social activities together as a team including sauna evenings. Understanding local knowledge is an important part of projects. We like to plan excursions to visit sites we're designing around Finland, and often combine these with visits to important Finnish buildings and areas.

# Internship

**W**e offer a friendly and encouraging environment where interns can gain knowledge of urban design and architecture in Finland and gain experience in a professional and fast-paced office. Interns are able to rent a place in a shared apartment located close to the office. Candidates are required to source outside funding such as the Erasmus + program or similar.

During the internship interns will gain specific experience in best practices of professional architectural workflow, Scandinavian architecture and building design, conceptual design of public buildings, professional 3D modelling, urban design and circular economy concepts, and architectural presentation and postproduction. Interns also have the opportunity to partake in research and writing for online publications.

To apply, please send an email to **hr@tundra.archi** attaching your latest portfolio, together with a cover letter confirming your eligibility for funding and setting out why you would like to undertake an internship with Jolma Architects.

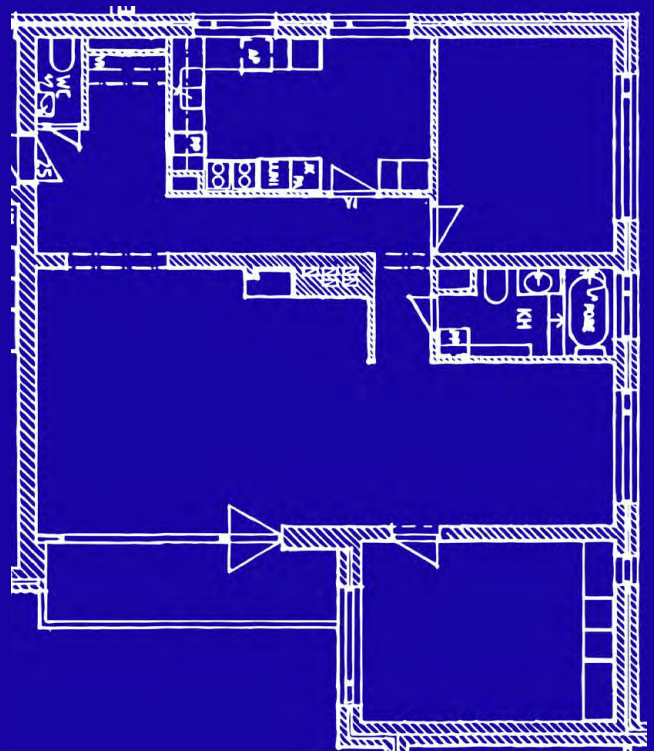

# Apartment

Finding a suitable place to live in an unfamiliar country can be difficult. Our internships come with the possibility to rent a place in an exclusive shared apartment. The apartment is 119,5m<sup>2</sup> and designed by the office of Alvar Aalto. The apartment is furnished with antique furniture designed by Alvar Aalto. The apartment is fully furnished, with beds, blankets, kitchen appliances and cutlery. Other amenities include a washing machine, dishwasher, microwave, kettle, coffee maker, toaster, hairdryer and vacuum cleaner.

The apartment is located in the centre of the beautiful town of Tampere in Western Finland, just 600 m from the office. Accommodation in the apartment and a separate bedroom is subject to availability.

The apartment is 119,5m<sup>2</sup> and designed by the office of Alvar Aalto.

# Experience

María García Martínez

"Working in Jolma gave me the opportunity to improve my skills, meet amazing people, and discover a country that I would love to return to in the future."

Judyta Maciejczek

"Internship in Jolma is a great experience and opportunity to learn how to adapt to different environment and culture. Also you can explore Finland and fall in love with the city of Tampere."

Duccio Toti

"A unique opportunity to learn about Finnish culture and architecture, work with professionals in the sector and travel the country in search of information useful for personal growth."

Farimah Piraei

"There is so much I enjoy about this internship with Jolma Architects such as meeting people from all over the world, being familiar with Finnish culture, and growing my skills and experiences in a professional work environment."

Javier Albacete Ródenas

"The fellowship among the teammates and the company trips were extremely valuable for me, both in my personal and working life."

Ondřej Král

"I enjoy working with people from all around the world and exchanging knowledge. I am glad I have the option to work on some very interesting competitions."
