

JOIN THE JOURNEY WITH AFRIKO!

If you have ever wondered about being part of a unicorn team, AfriKo might be the right choice for you.

INTERNSHIP

In startup world, 'unicorn' is a company valued at over \$1 billion. We like to think of AfriKo as a non-profit unicorn - though we haven't reached that value yet, the organization is growing exponentially. We are a research and consultancy centre busy making and analysing unexpected connections between Lithuania and African countries.

Our most recent achievement - *Digital Explorers initiative* - facilitates relations between Lithuanian and Nigerian ICT sectors. The EU's funded pilot sets a stage for creating *career enhancement opportunities* for Nigerian tech developers through work placement in Lithuanian ICT companies.

Team unicorn needs some support, so we are offering internship opportunities in three areas of concern:

- public relations/communication
- MTH (making things happen)
- research

Lukas Ivanauskas, Head of Research Department at AfriKo: AfriKo is a stage for creative and passionate individuals who are problem solvers instead of passive observers. What I value the most about my internship at AfriKo is a real chance to make a difference and transform my aspirations into reality.

If you see yourself in our team, please send your CV with few sentences about your motivation and interests to egle@afriko.lt as soon as possible.
