**THIRD-PARTY
INTEGRATORS**

The Lynq network consists of three main sectors - developers can integrate with each of these to access a range of features.

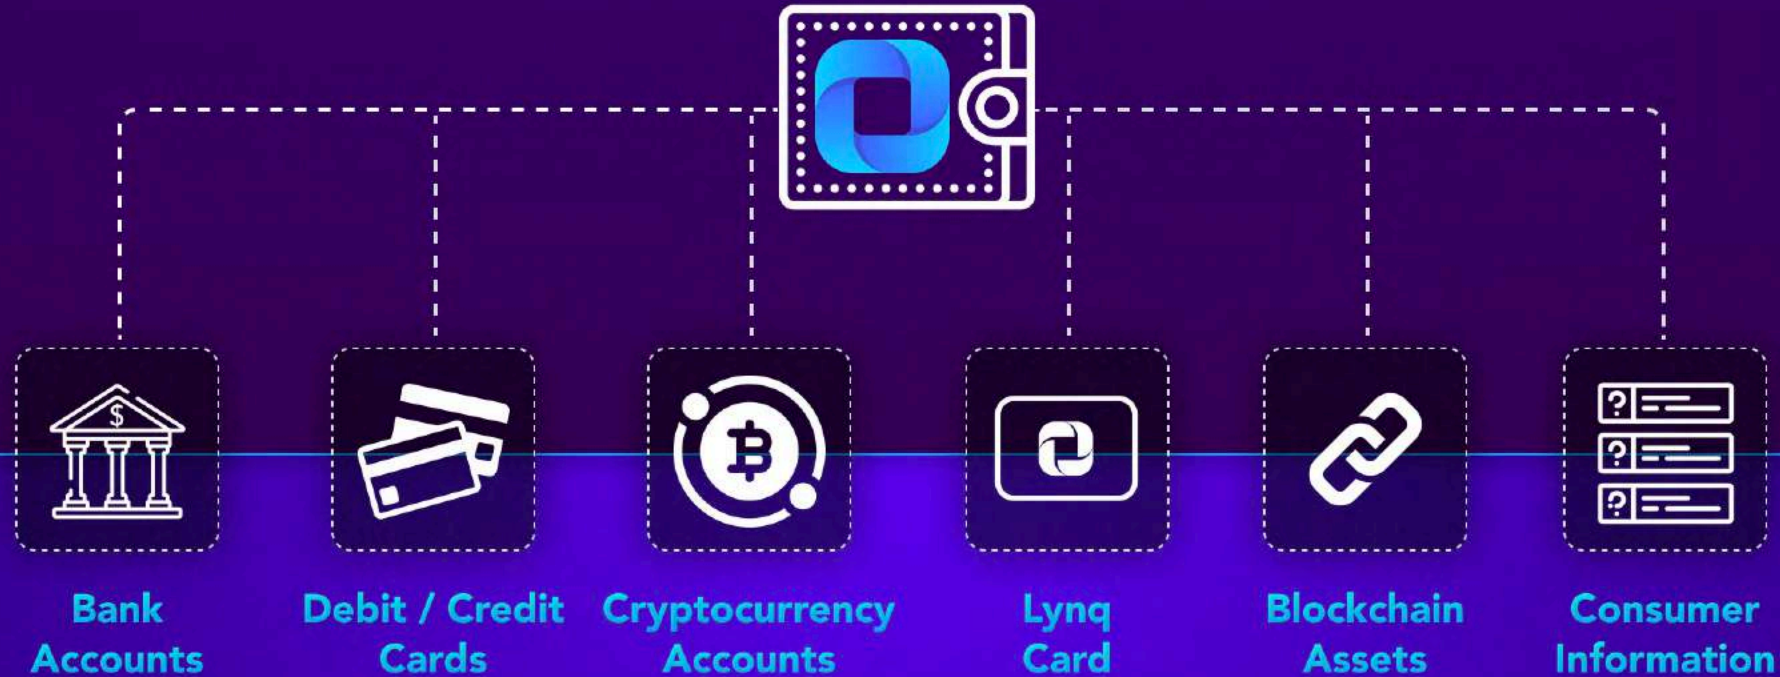

Lynq Wallet

Everything you need, under one hood

WALLET.LYNQ.EU

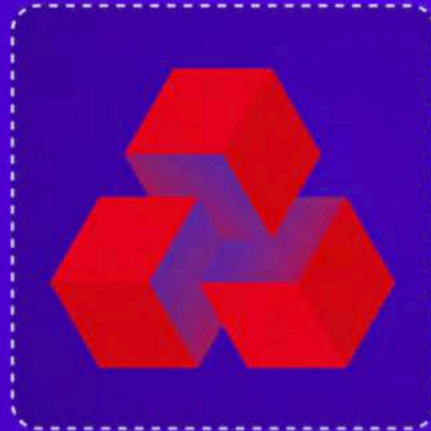

Lynq Wallet

Consumers consolidate everything from payments & user information to assets and rewards into one account. This account can be used itself, or as a login to other applications & websites.

**Your Cards, Bank accounts & Cryptocurrency wallets.
One app. One Lynq**

Lynq Card

With Lynq Card, users can 'Lynq' any pre-existing banking credit or debit card to their Lynq Wallet.

This card can then be used as a tool to login to their Lynq wallet at any integrated ATM, POS or Terminal, accessing their banks, cryptocurrencies and blockchain assets.

Business POS

Creating the future of universal, digital businesses

[BUSINESS.LYNQ.EU](https://business.lynq.eu)

Accept

Expand your business to the digital world.

Rota

Manage employees and shifts with ease.

Menu

Put your business online and sell through the app.

Analytics

Use Lynq Insights to see the bigger picture.

Marketing

Build a loyal customer base with promotions.

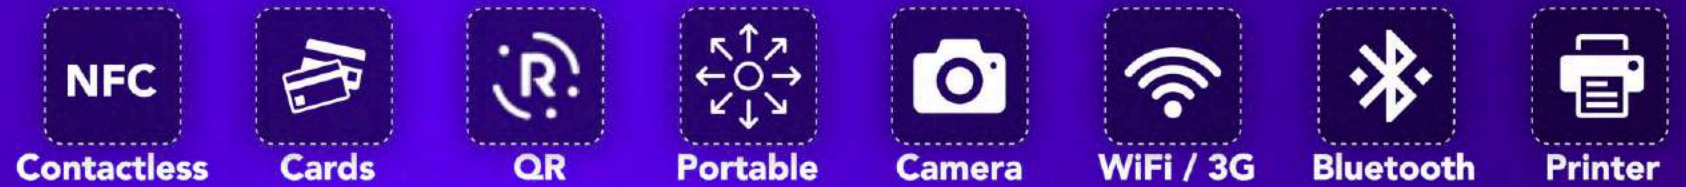

Discovery

Book live acts from DJ's to comedians.

Lynq Terminal

Businesses can use the Lynq terminal to manage their Business profile, receive orders and accept both FIAT (£\$€) and Cryptocurrency payments instantly.

Other Terminal providers will be able to integrate with the Lynq Payment Gateway to accept FIAT Faster Card Payments and cryptocurrencies.

Lynq Card x POS

The card can be now used at any Lynq POS, allowing users to select which account to pay with. As the payment is being processed through Lynq, card transactions now arrive instantly in the businesses bank account, and cost dramatically less than the current process.

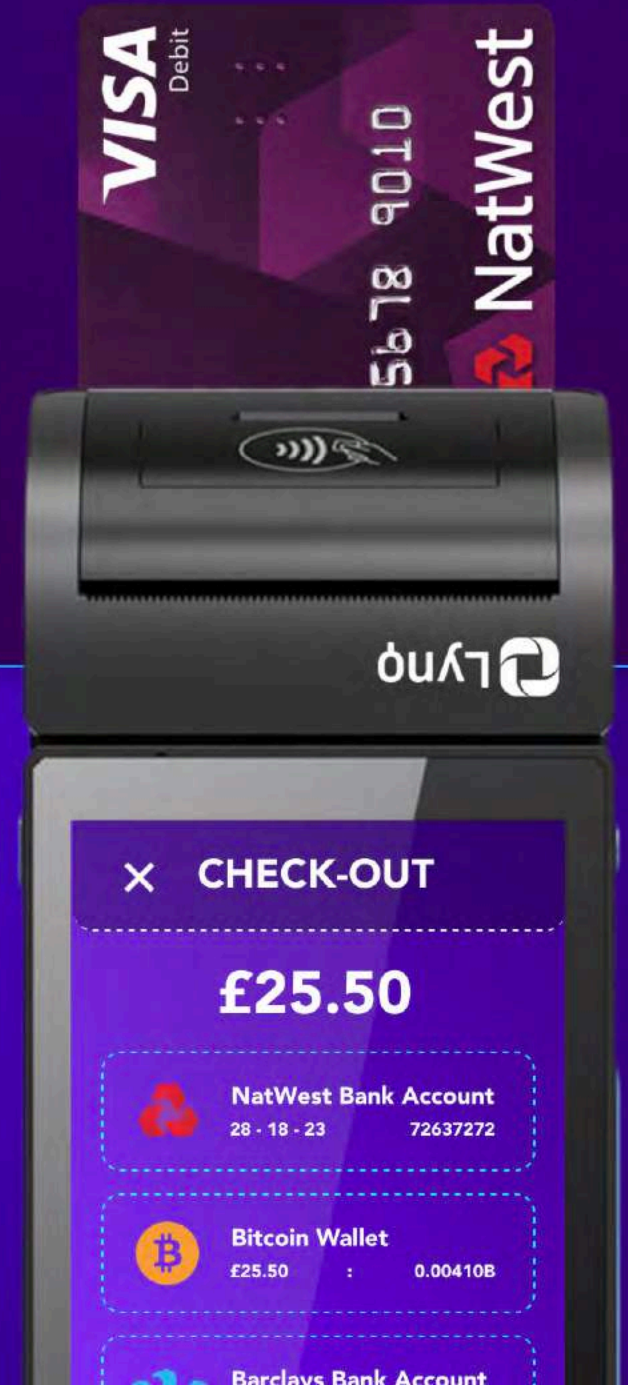

Existing POS, Tilling systems and ATM's can integrate and Install Lynq

Rewards and Assets

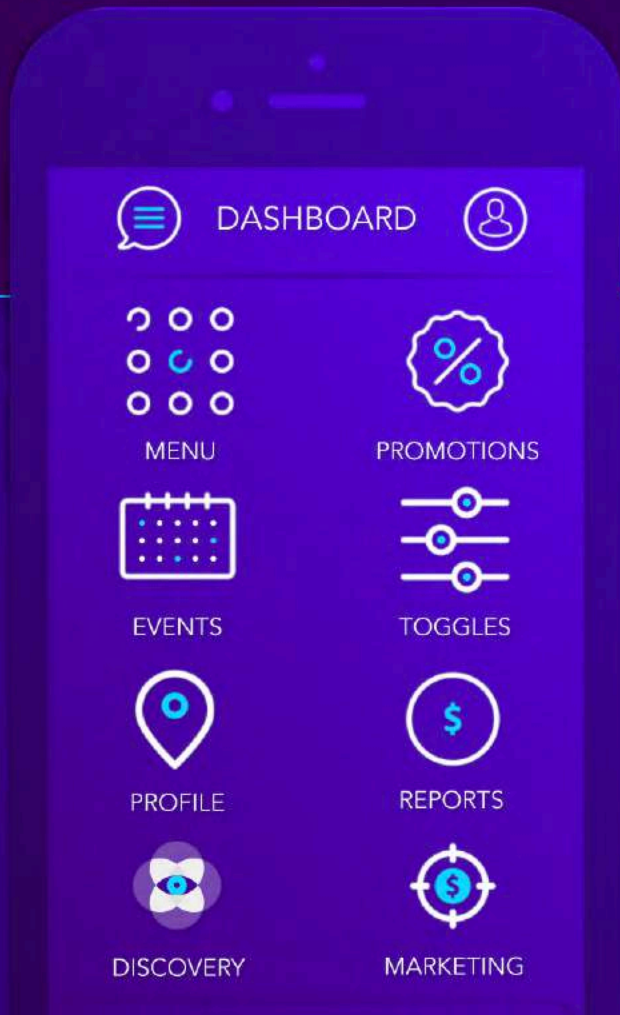

UK Consumers lose £300m every year from lost gift cards, vouchers, stamps and points. With Lynq, these can all be attached to your card.

This means that when you buy Starbucks with you Lynq'ed NatWest card, the points will automatically be added and redeemed from your Lynq account. Any products you've purchased online through Third-Parties can also be accessed in a similar fashion.

Lynq POS

Along with the Lynq POS, businesses can manage their accounts with the mobile / tablet application, web app or any integrated POS system. This means that existing tills, terminals and ATM's can simply install the Lynq software.

Third-Party Applications

The universal portal for digital businesses

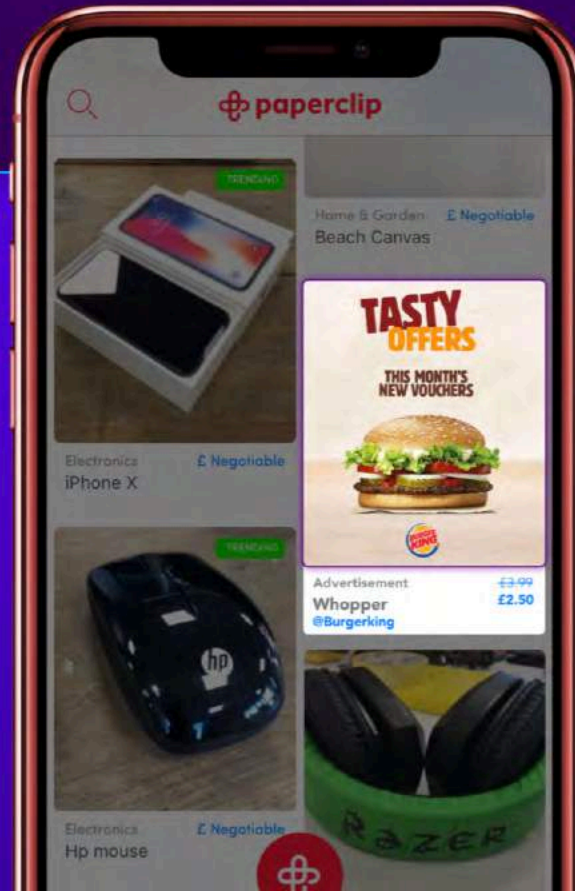

With Lynq, businesses have a much wider audience to promote and sell products through, and TPA's have a brand new revenue stream from advertisements and transaction fees.
