

Yosh.AI is an international deep-tech company creating solutions based on Artificial Intelligence. Our main areas of expertise are voice & text assistants and products like visual search and recommendation engines. We support international companies such as CCC, LPP, MediaMarkt or Frisco in the retail and in the Financial sector Santander and Aviva. We are a global Google partner, working together on most innovative projects within Conversational AI.

Forbes UK nominated **Yosh.AI** as a company that revolutionises the future of retail. We are winners of multiple prestigious international awards.
