

Join us as “Operations Automation Intern” in Vienna, in Berlin or remote

Are you a foodie, who cares about health and environmental topics? Would you like to work in a startup environment with international experts thriving for excellence? Would you like to make a difference and **contribute to our mission for a happy world, connecting happy suppliers and happy customers, one supply-chain at a time?** Then... Join us! We are looking for an enthusiastic and avid learner to help **automate our operations** to complete a **min. 3 month internship** on a volunteering basis(*) as we invest a lot in training/coaching.

ABOUT US

Climate emergency has been declared: Renewable energy is needed! As transport, agriculture and biomass energy produce the highest greenhouse gas emissions, ClearKarma sets new standards cutting down our footprint on the planet through local food sourcing from quality vendors, environment friendly packaging and efficient waste management. Food and energy information are verified and traced via Blockchain for data security and automation. We support the UN Sustainable Development Goal of “zero hunger” through helping fund solutions to heal the broken food system by reducing food waste to feed more people.

YOUR RESPONSIBILITIES

- Develop and implement automation strategies to improve operational efficiency.
- Analyze existing operational processes to identify potential areas for automation.
- Help set up platforms for collaboration, project and knowledge management
- Identify quality issues and bugs in the existing operations systems.
- Collaborate with cross-functional teams and end-users to improve automation solutions.

YOUR SUPERPOWERS

- Proactive, results-oriented with a passion for simplifying complex information, strong data analysis, precision, structuring and autonomous working skills.
- Currently pursuing a degree in IT, Engineering, Business Management, or a related field.
- Can deal with no-code automation applications like Coda or Airtable and the Zapier API
- Knowledge of technologies like JavaScript/Python scripting languages and SQL/NoSQL database management systems is a plus.
- Working knowledge of MS Office or Google Apps and Google Drive.
- English (C1 level required). Notions of German, Turkish, Spanish or French can help.

WHAT'S NEXT

Forget standard cover letters! We want to know YOU... Please share with us:

- 1) YOUR superpowers and the skills you are learning (not only the professional ones)
- 2) Your passions (at work, in life)
- 3) What you like about the project and how you relate to it personally

Please upload your CV and answers to <https://forms.gle/8srLu3T7HHCTgcgN9>

(*) Non-monetary rewards possible depending on results and length of internship. We can also help you to receive grants (e.g. Erasmus+).
