WHY SHOULD YOU COME TO BRNO?

Brno is a lovely student city to live in, with nearly 400,000 inhabitants, and six reputable universities with 80,000 students. There are many theatres, cosy coffee shops, music clubs and lots of great architecture. Brno is the location of the headquarters of a handful of the biggest companies in the world (IBM, Red Hat, Dixons Carphone CoE, KPMG, PPG, Honeywell, Zebra Technologies, AVG and EY). Beer and ice hockey are a source of national pride. The Czech Republic has a mild, continental climate characterised by hot summers and cold, cloudy and humid winters. If you like travelling, Brno is a perfect starting point as it is located in the heart of Europe. It takes only about 3 hours to travel from Brno to other cities like Prague, Vienna, Bratislava and Budapest. In addition, the cost of living is very low in comparison with most European countries.

Brno. It's time to get acquainted!
