

Social Media Manager Internship position at Youth Entrepreneurship Club (YEC)

As an intern as a Social Media Manager at YEC, you are responsible for the creation, curation and the management of content on all our social media channels. This may include searching for trending social media channels, the creation of short texts (adjusted for social media), chat correspondence, sharing of upcoming events, latest news and recent work, posting advertisements, statements, and pictures. Additionally, you are expected to optimize the overall social media strategy on an ongoing basis.

You will be the ready ear and voice of our organization. You will get in touch with all areas of our organization and the public. You will transport our vision, mission and overall goal to the public. We encourage you as an intern to have self-responsibility in all your tasks. You will evaluate the performance of processes, create new systems and procedures and you will work closely with our team. Innovative Ideas located outside the box, applied creativity, and an inquisitive mindset are very desirable.

From our candidates, we expect to have effective communication, proficient writing skills, good organizational skills, creative mindset, good knowledge of Microsoft Office 2016 (Word, PowerPoint, Excel) and Wordpress, academic knowledge of social media management, communication or cultural management. Experience with Facebook power editor would be an advantage.

The Youth Entrepreneurship Club offers you as an intern self-responsibility within all tasks, own decision-making, working in a young international team, a flexible timetable, participation on our events and NGO meetings, feedback on a regular basis, experience and knowledge sharing and training on different subjects and programs.

Additional information

The minimum time period of an internship is two months. Usually our interns stay between three to six months. Interns should be currently enrolled at a University (bachelor or master), or have finished their degree within the last year.

Interns must bring their own laptops.

The Internship is UNPAID.

We can help finding accommodation.

About YEC

The Youth Entrepreneurship Club (YEC) is a non-profit, non-governmental organization founded in 2015 by a group of young people who love entrepreneurship and technology. We encourage, support, unite and connect entrepreneurs, scientists, students, the unemployed and social ventures. We provide tools they need to create innovative projects, i.e. sharing local economies, we encourage to stay in the country and picture the future with optimism.

The YEC creates a communication channel between academic institutions, the actual market, and the society. In this way, we contribute forming a dialogue between science and everyday life, foreseeing the entrepreneurial potential of the produced knowledge. We manage national and European wide conferences, seminars, webinars, speeches, open coffee events and counting more in future.

The YEC provides information on exchange programs, funding, and counseling for the benefit of those who are engaged or wish to engage in our organization. The YEC group seeks to expand to as many local communities as possible using multiple activities which aim it is to transfer knowledge, opportunities, and experiences such as competitions, educational trips, thematic workshops, educational games, lectures of scientific and business training.

The YEC enables young interns coming from abroad to share their experience, enhancing cross-border networking and cooperation. We are profiting from teamwork abilities, networking with institutions and businesses, volunteering and experience in various fields of entrepreneurship (i.e. financial & business planning, marketing, fundraising).

Our vision is to connect the educational institutions and the society in a strong network of entrepreneurial culture where knowledge is used to create. We focus on innovation towards sustainability & progress. We dedicate ourselves spreading the entrepreneurial spirit in our country. Our teamwork and cooperation with each other are the means to achieve our goals. Our knowledge combined with creative innovation is the compass for all our plans.
